

New Fortress Energy Executes 3-Year Charter for the Energos Freeze

NEW YORK--(BUSINESS WIRE)--May 13, 2025-- New Fortress Energy Inc. (NASDAQ: NFE) ("NFE" or the "Company") announced today that its subsidiary has executed a three-year charter agreement for the Energos Freeze, a 125,000 m³ Floating Storage and Regasification Unit (FSRU), with Energía 2000 S.A. in the Dominican Republic.

The Energos Freeze will be deployed to Energía 2000 S.A.'s LNG import terminal located at the port of Pepillo Salcedo (Manzanillo) and is expected to commence operations in September 2025. The FSRU will provide critical LNG regasification services to support power generation and industrial energy demand across the region.

"This charter agreement reflects our continued commitment to expanding energy access in the Caribbean through strategic partnerships and world-class LNG infrastructure," said Wes Edens, Chairman and CEO of New Fortress Energy.

Cautionary Statement Concerning Forward-Looking Statements

This press release contains certain statements and information that may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this press release other than historical information are forward-looking statements that involve known and unknown risks and relate to future events, our future financial performance or our projected business results. You can identify these forward-looking statements by the use of forward-looking words such as "expects," "may," "will," "can," "could," "should," "predicts," "intends," "plans," "estimates," "anticipates," "believes," "schedules," "progress," "targets," "budgets," "outlook," "trends," "forecasts," "projects," "guidance," "focus," "on track," "goals," "objectives," "strategies," "opportunities," "poised," or the negative version of those words or other comparable words. Forward looking statements include our expectation regarding the extension of the gas supply contract. These forward-looking statements are necessarily estimates based upon current information and involve a number of risks, uncertainties and other factors, many of which are outside of the Company's control. Actual results or events may differ materially from the results anticipated in these forward-looking statements. Specific factors that could cause actual results to differ from those in the forward-looking statements include, but are not limited to: risks related to the operation and maintenance of our facilities; failure of third-party contractors, equipment manufacturers, suppliers and operators to perform their obligations for the development, construction and operation of the power plant; the receipt of permits, approvals and authorizations from governmental and regulatory agencies on a timely basis or at all. These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of the Company's forward-looking statements. Other known or unpredictable factors could also have material adverse effects on future results. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no duty to update or revise any forward-looking statements, even though our situation may change in the future or we may become aware of new or updated information relating to such forward-looking statements. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements included in New Fortress Energy Inc.'s annual and quarterly reports filed with the Securities and Exchange Commission, which could cause its actual results to differ materially from those contained in any forward-looking statement.
